

## LINE CARD

<b>Data Acquisition Systems</b>	
 <b>CRYSTAL</b> INSTRUMENTS	Manufacturer of equipment for condition monitoring, dynamic signal analysis, and vibration test control
	Manufacturer of High Speed Data/Ethernet recorders
	Specializing in transient recorders, data acquisition systems and high resolution Digital Oscilloscope products for a variety of applications and markets.
 <b>DEWEsoft™</b> measurement innovation	Flexible Instruments, powerful software, distributed data acquisition
	Provider of art engineering services, manufacturing and test and measurement products
<b>Sensors</b>	
	Precision electro-mechanical products as associated with "high technology" instrumentation systems and components for measurement, monitoring and control applications
 <b>MilSpecWest</b> <small>The very best in Micro Interconnect products</small>	Manufacturer, assembler and value-added distributor of micro connectors
	Designer and manufacturer of high quality, affordable test instruments. and value-added solutions to help make better measurements.
<b>System Integration , Engineering, and Contract Manufacturing Services</b>	
 <b>Applied Innovation Group, Inc.</b>	Product engineering development and manufacturing needs
<b>Measurement Systems</b>	
	Powerful and general purpose desktop force measurement system used for friction, wear, tensile, scratch, fatigue and tactility measurements
